Could you be infected and not know it?

Lyme disease is difficult to diagnose. ACS 200 Extra Strength is the only antimicrobial proven to kill *Borrelia burgdorferi*.

Conclusion

In the clinical setting, many practitioners currently prescribe ACS 200 Extra Strength to their patients with excellent outcomes. Adding ACZ nano Extra Strength and ACG Glutathione Extra Strength to reduce toxic body burden of toxic heavy metals is also crucial to achieving complete recovery. When taken together, these three products provide a highly effective regimen.
