### Why Do We Need Intracellular Detoxification?

Toxic heavy metals, chemicals, pesticides, pathogens and disease-causing microorganisms accumulate in our bodies at the cellular level, causing cellular damage, harming our immune system, reducing glutathione antioxidant levels and leading to significant health issues.

*"Environmental toxins contribute to more than 100 diseases and account for 1 in 4 deaths worldwide."*

*World Health Organization, March 2016 Report*

Toxins and pathogens are the primary causes of nearly every degenerative health condition known; potentially resulting in severe symptoms and chronic, debilitating disease.

**If The Problem Is Toxicity At The Cellular Level, Then By Definition The Solution Is Intracellular Detoxification**

### Why Does Results RNA Work?

Most detoxification products:

- Cleanse only the colon, liver or kidneys
- Have side effects making you miserable for days

Ultimate Body Detox is the only detoxification system of its kind that has been proven to cleanse the body of many harmful toxic heavy metals without side effects.
